ABOUT BHOOMI CREATION GULLAK

BHOOMI CREATION GULLAK operates on a referral-based income generation model, providing a network platform for individuals to earn. The core of the system lies in its referral program: upon joining, members are tasked with recruiting four others. Once these four referrals successfully register, the original member unlocks a stream of income. The potential earnings through this program are substantial, with the promise of ₹68,200/- achievable through a two-tier referral structure. This means not only referring four individuals but also encouraging each of those four to recruit four more of their own, effectively creating a pyramid-like network of referrals. While this model offers the allure of significant income, it's crucial to understand the inherent complexities and potential risks associated with such referral-based systems, especially those relying on a multi-level structure.
